Phone: +880 1872-104142 | Naogaon, Bangladesh

CAREER OBJECTIVE

Mechanical Engineering graduate from Rajshahi University of Engineering & Technology (RUET), with a strong academic foundation in design, production planning, quality control, and automotive engineering, complemented by hands-on exposure to HVAC systems and maintenance operations. Seeking an entry-level position to apply technical knowledge, leadership, and management skills to contribute to organizational efficiency and growth.

EDUCATION

B.Sc. in Mechanical Engineering

March 2022 - August 2026

Rajshahi University of Engineering & Technology (RUET)

CGPA: 3.33/4.00

Notable Courses: Thermodynamics, Fluid Mechanics, Heat Transfer, Machine Design, Manufacturing Processes, Production Planning & Control, HVAC & Refrigeration, Control system, Industrial Engineering & Management.

Undergraduate Thesis: Development of an ANN Based Indoor Thermal Comfort Prediction and Monitoring System.

Higher Secondary Certificate (HSC)

2018-2020

New Govt. Degree College Rajshahi

GPA: 5.00/5.00

Secondary School Certificate (SSC)

2016-2018

Joypurhat R.B. Govt. High School

GPA: 5.00/5.00

INTERNSHIP EXPERIENCE

Industrial Trainee | Square Pharmaceuticals PLC
2025

March 2025 - April

- Completed a 4-week industrial attachment at Square Pharmaceuticals PLC, gaining hands-on exposure to pharmaceutical manufacturing processes and plant operations.
- Observed key production workflows including granulation, compression, coating, and packaging, building a practical understanding of large-scale pharmaceutical manufacturing systems.
- Gained working knowledge of Good Manufacturing Practices (GMP), quality control procedures, plant maintenance, and safety protocols in an industrial setting.
- Strengthened teamwork, technical observation, and professional communication skills through direct engagement with plant personnel and operations.

ACADEMIC PROJECTS

- Three-Axis Robotic Arm**

Designed and built a robotic arm with three-axis rotation using servo motors and a microcontroller for coordinated motion control.

- Object-Pulling Crane Prototype**

Developed a working crane prototype, applying core principles of mechanical linkages and load handling.

- Mechanical Parts Design (AutoCAD)**

Modeled various mechanical parts in AutoCAD, gaining hands-on experience in 2D/3D drafting and engineering drawing.

LEADERSHIP & EXTRA CURRICULAR ACTIVITIES

Class Representative | Dept. of Mechanical Engineering, RUET

October 2023-August 2026

- Served as Class Representative for over two years, managing three sections of over 180 students and acting as the primary liaison between faculty and students to ensure smooth academic coordination and effective communication.
- Organized and managed key departmental programs, including farewell and reception ceremonies, class parties, and the industrial tour, overseeing planning, logistics, and execution.

Vice President (Finance) | ASHRAE RUET Student Branch

July 2025 – August 2026

- Organized and coordinated two technical events, including a two-day HVAC Design seminar and an introductory session on ASHRAE and HVAC systems, in collaboration with the ASHRAE Bangladesh Chapter. Engaging over 150+ student participants.
- Managed financial planning and resource allocation for branch events and activities as part of the executive committee.

General Secretary | Joypurhat Zilla Association of RUET

June 2025 - July 2026

- Organized Iftar parties, get-togethers, and the annual picnic, and coordinated sports events for nearly 50+ association members.
- Managed admission booth arrangements to welcome and assist new students during the admission season.
- Organized a Science Olympiad at a school in Joypurhat, promoting scientific interest and academic engagement among students.

Quality Control Team Lead | Team Annexe RUET

August 2025 - August 2026

- Led quality control for the design and manufacturing of a Go-Kart as part of RUET's student team competing in the Formula Kart Design Challenge (FKDC).
- Conducted materials selection and dimensional analysis to ensure components met performance and safety standards.
- Carried out market analysis to identify cost-effective, high-quality materials and components for the build.

SKILLS

TECHNICAL SKILL

- Machine Design & Mechanical Drawing
- Thermal & Fluid System Analysis
- Manufacturing Process Planning
- HVAC & Refrigeration System Design
- Maintenance & Troubleshooting
- Quality Tools: 5S, Six Sigma, Root Cause Analysis, 5M, Fishbone (Ishikawa) Diagram

SOFTWARE SKILL

- MS Excel (Formulas, Pivot Tables, Charts)
- AutoCAD (2D Drafting & Part Design)
- SolidWorks (3D Modeling & Assembly)
- ANSYS (Basic Simulation & Analysis)
- MATLAB (Basic Numerical Analysis)
- MS PowerPoint (Technical Presentations)
